

## Staff Vacancies – Postes à Pourvoir - Stellenangebot

Raynet  
is recruiting a:

### IT Business Consultant

**Based in Weil am Rhein, Germany**

*Contract type: Permanent Position*

*Starting time: ASAP*

### JOB POSITION MISSION

---

Raynet is looking for a IT Business consultant. She (or he) will lead and participate in projects to support, maintain, and evolve both internally developed and external applications. The main target is to improve our abilities in collaboration for sales, engineering, quality, purchase and production to respond to internal and customer needs worldwide. This is predominately related to the product development process of the ARaymond Network.

### ROLES AND RESPONSIBILITIES

---

- Analyse needs and propose solutions based on existing software packages and business processes, explain their advantages and disadvantages, advise, evaluate risks and workloads.
- Transfer requirements into software solution in teamwork with users and software developers.
- Ensure quality of new software functionalities and their integration in the existing software packages.
- Create documentation for different stakeholders.
- Train end users.
- Be the responsible project manager for local and international rollouts.
- Participate in and lead international workshops.
- Define and maintain interfaces in agreement with other teams.
- Roll out software packages and ensure integration within the framework of the projects (some travels to ARaymond network subsidiaries will be necessary).
- Creation of reports.
- Conduct second level support.

Some overnight travel to Europe or overseas.

### EDUCATION AND EXPERIENCE REQUIRED

---

She (or he) will have a degree: bachelor or master or equivalent work experience.  
A minimum of 2 years' experience in Project Management in IT area or Product Development area (automotive industry) is required.

### SKILLS REQUIRED

---

- Dynamic, self-driven professional, motivated and well organized
- Excellent communication, presentation and negotiation skills, ability to work with international teams
- Excellent project management skills
- Ability to work across cultures (international and multicultural mind-set)

- Experienced in business process analysis, UX design and software quality assurance
- Knowledge of product development process would be a plus
- Knowledge of electronic workflow systems would be a plus
- Good knowledge of databases and basic knowledge of programming

## **LANGUAGES REQUIREMENT**

---

Fluent English and German required
